1. In following up on my discussions, I wish to clarify any misunderstandings which may have resulted from my expressed desire of having functions combined where ever possible. The following is for your guidance:

25X1A2d1

a. AECOM has placed upon Chief, KICLUB the responsibility for direct and rapid staff and operational communications support. Frequently this is in response to high priority projects calling for immediate action on the part of the KICLUB field element concerned. In order to accomplish this as well as its more routine functions effectively, KICLUB must have jurisdictional control over the operation of forward depots.

b. Additionally, KICLUB is responsible for controlling the test, inspection, stock levels and issuance of communications equipment. Therefore, KICLUB must maintain appropriate control records.

3. I believe the above to be in the best interests of the Organization particularly if, whenever practicable, it can be augmented by the use of a communications force, service group and the expansion of the control records to serve as the accountable record.

25X1A6a

4. I was gratified to read and to note the agreement regarding certain changes at [redacted] and to approve the implementation of the changes recommended in [redacted] if upon review they are still agreed as desirable. I believe that further changes in the [redacted] material support functions are not required at this time.
